Description :

PDF-8a169 | While many women receive equal education, such equality is nowhere in sight when it comes to women's and men's career success: men still earn significantly more than women and are more likely to be promoted. In this book, the authors offer a state of the art review of applied social-psychological research on gender at work, shedding light on all the different ways that work-related perceptions... *Gender at Work: A Social Psychological Perspective (Language as Social Action)*
